COUNTY COAL PRICES TO BE RAISED

JONAHEY, BLOOM ONLY DEMS. TO WIN

Plurality of Next Governor Is Placed at 16,000; Fess Won by 52,000; Dry Lead May Mount to 175,000

COLUMBUS, Nov. 10. — Every doubt that Miss Florence E. Allen had defeated Judge Benson Hough for the second vacancy on the supreme court of Ohio was cleared away today as belated returns were received and tabulated. Indications were that her plurality would be in the neighborhood of 23,000 and might be higher. With approximately 350 precincts still to report she was maintaining that lead over the down state jurist.

Judge Robert H. Day, with 30,000 votes more than Miss Allen, is making one of the most remarkable races since the non partisan ballot had been used to select judicial candidates.

Earl D. Bloom, Bowling Green lawyer, was leading William H. Hatfield by more than 8000 and his election, while not yet conceded by republicans, was regarded as certain.

Clearing up these two disputed races make the result of the state rides race in Ohio's selection as follows:

Governor—A. V. Donahey, democrat.

Senator—Simeon D. Fess, republican.

Lieutenant governor—Earl D. Bloom, democrat.

Secretary of state—Thad H. Brown, republican.

Treasurer of state—Harry S. Day, republican.

Attorney general—C. C. Crabbe, republican.

Judges of the supreme court—Robert S. Day, republican, and Florence E. Allen, non partisan.

Donahey's plurality will be in the neighborhood of 16,000, while Fess won his election by more than 52,000, according to complete unofficial returns.

The majority against the beer amendment continued to mount, and may reach 175,000. With Wood county alone missing, it was unofficially tabulated at 172,000.

The debt limitation and tax classification amendments were both defeated by more than 100,000.

SHAKE-UP IN CONGRESS NOW HELD PROBABLE

New Faces to Be at Helm Although G. O. P. Will Have Majority in Both Houses

WASHINGTON, Nov. 10.—A thorough shakeup of the republican organization in congress as a result of Tuesday's elections was regarded as inevitable today by republicans of all shades of opinion in Washington.

The republicans will organize both senate and house, despite their slim majorities but new faces will be at the helm of things in the next congress. Senator Lodge as majority leader of the senate is virtually certain to go. His advanced age and the arduous duties that the leadership of the senate in the 68th congress will entail make it extremely probable that he will be succeeded by a younger and more vigorous senator.

Three names were mentioned prominently today in connection with the leadership of the next senate. Watson of Indiana, Curtis, of Kansas, and Wadsworth of New York. Watson and Curtis have divided much of the leadership in the last months, although Senator Lodge has had the title.

The house, too, will offer many changes in leadership and in the chairmanships of important committees.

There is a possibility of a three cornered fight for the leadership of the next house now vacant through the retirement of Mondell of Wyoming. The candidates are Representative Longworth of Ohio, Representative James R. Mann of Illinois and Representative Sidney Anderson of Minnesota, a leader in the farm bloc. Anderson will have the backing of many western and midwestern members.

Speaker Gillett also may go. If he does, it is not improbable that Representative Mann would succeed to the speakership.

RAYMOND ROBIN OPENS OPEN FORUM ON SUNDAY

The Elyria Open Forum has succeeded in securing an engagement with Raymond Robins to speak on Sunday, November 12th. Mr. Robins will speak in the Methodist church Sunday afternoon at 3:00 o'clock upon the subject, "America's Answer to the Bolshevik Challenge."

Mr. Robins is perhaps the best qualified of any person in America to speak upon this subject. His personal knowledge of the conditions in Russia today will make his message of great interest.

Mr. Robins has had a most unusual career. He started his work as a newsboy on the city streets and cash-boy in a department store. Later he was employed on a Florida plantation as a farm hand, from that became deputy postmaster and clerk in a general store. Then he became a miner and worked with the pick at Illinois and Colorado. Later still he became a clerk in a law office and studied law, only leaving this to go as a gold miner to the Klondike. While in Alaska he became interested in the problems and hardships of his associates and went into religious work. When he returned to the states he kept on with his social work in connection with the Chicago Settlement, going progressively to more and more important work.

Mr. Robins was one of the founders of the Progressive party and was its candidate for the U. S. Senate in Illinois. During the war Mr. Robins was a lieutenant commander U. S. A. commissioner commanding the Red Cross mission in Russia and was the special unofficial representative of the American government for communication with the officials of the Soviet government in Russia, 1917 and 1918. He was a member of the executive committee of the National republican committee for the presidential campaign in 1920.

Mr. Robins' life has been marked by many thrilling episodes and he has delighted in the stress of the firing line, but neither the Alaskan trail nor the wildest days in Nome, the stirring political clean-up of the Chicago River Ward, nor industrial wars in the steel garment of hat industries can compare with his battle to delay peace and prevent the shipment of raw materials from Russia to Germany in the first months of the Bolshevik.

THOMPSON AND BENDER PLEDGE DONAHEY HELP

CLEVELAND, Nov. 10.—Any attempt upon the part of the republican organization in Ohio to "hamstring" the administration of Governor-Elect Donahey by factious opposition to his executive policies or by attempts to hold up his appointments through failure of the senate to confirm will be met by a solid wall of opposition, Senator George H. Bender, re-elected to the next senate and given the largest plurality of any of the six republican candidates here, told International News Service in an exclusive interview today.

Turning then to a discussion of the defeat of Carmi Thompson, republican candidate for governor, Senator Bender, who managed the primary fight of Congressman Chas. L. Knight for governor, said:

"Political bosses and machines can put over their hand-picked candidates in the primaries but they can't saddle him on the people at the election.

"The people have indicated by their vote that the state government of Ohio should be run from the standpoint of general welfare and that the affairs of the republican party shall be placed in the hands of the people who are not making a living out of public offices and public plunder.

"This is just the beginning of a new dawn in republican politics in Ohio.

COLUMBUS, Nov. 10.—"Accept my congratulations. I hope and believe your administration will be a successful one." This is the message sent by Carmi A. Thompson, Cleveland, unsuccessful republican candidate for governor, to Vic Donahey, Ohio's governor elect.

COMPLETES SURVEY

Secretary Nye gave a talk and thoroughly discussed the situation in Ohio. He asserted that the legislation in Ohio instead of being beneficial to the people and to the dealers was as a matter of fact detrimental to both. He declared that it was difficult for the State to fix prices for the entire State as each dealer had his individual problems to solve, and the state price many times worked an injustice. The large dealer, for instance who stored his coal in quantities so as to be ready for an emergency, had more overhead expense than the dealer who got in a car load or two and sold it right away, but the State allows but one price than can be charged.

Speaking of the dissatisfaction that some times exists in the mind of the public he said, that some of this was caused by manufacturers who sold coal to their employees for cost. They sold it for less than the dealer, and the neighbors of the man who got the cheaper coal would be dissatisfied and accuse the dealer of profiteering.

Affects Entire County

The fixing of the price to be charged at the mines by the mining companies did not work out right, for much coal could be shipped out of the State at a higher price than the mine owners could charge Ohio dealers. Priority orders for the Northwest included Canada, and Ohio coal was being shipped to Canada regularly. This was an injustice to the people of Ohio and to the dealers who cannot get enough coal to supply their customers.

The order for the 15c increase in price in this city, Lorain, Oberlin and Amherst will be issued by the State Fuel administrator tomorrow.

The poster is the work of Lawrence Wilbur, a New York artist, and will be displayed throughout the country during the enrollment of the Red Cross membership for 1923, which begins Armistice Day, Nov. 11, and extends to Thanksgiving, Nov. 30.

Why Have High Blood Pressure?

Local Druggists Now Dispensing a Buffalo Physician's Prescription That Does Reduce High Blood Pressure.

A list ask for NORMA—a purely vegetable combination used in private practice for years with wonderful success and only lately offered direct through druggists.

If you have dizzy spells, pains in the head are fortune, restless or can't and don't sleep well, then you probably have high blood pressure and don't know it.

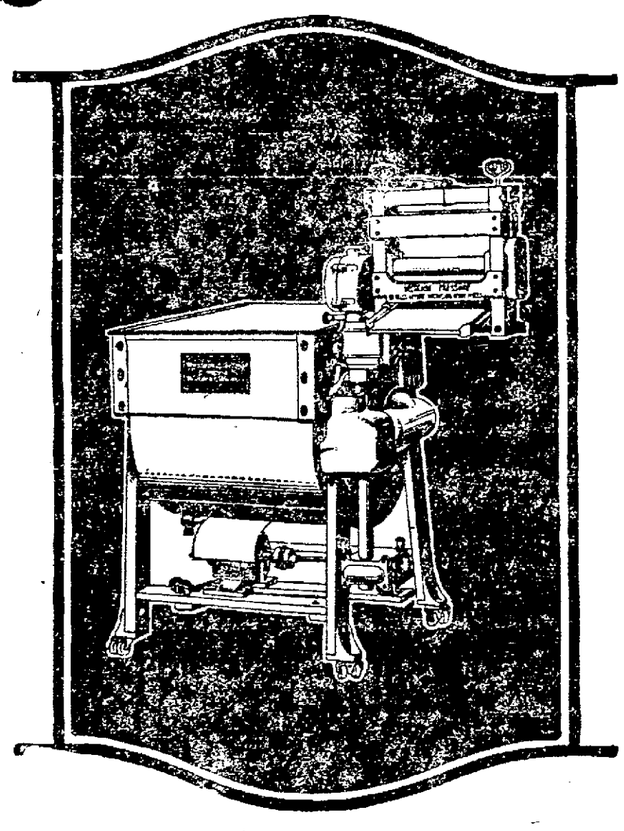

NORMA is for high blood pressure and nothing else and one bottle will prove it. Many women at the Imperial Shoe Shop have found it the only remedy that really helps. You can get it at Phillips Drug Store and all good druggists. Ask for NORMA.—Advt.

Reading about two little English [illegible] who, according to Conan Doyle, discovered real fairies in the woods we were reminded of another child because he was so different. Robert, the four-year-old son of a scientific man, had lived in the country most of his short life. One day a visitor, wishing to make friends with the little fellow, took him on his knee and asked, "Are there any fairies in your woods here, Robert?"

"No," responded the child promptly, "but there are plenty of edible fungi!"—Boston Transcript.

TODAY'S RECIPES.

Rice Balls—Use leftover pork or veal or both together. One cup chopped meat, two cups boiled rice, one egg, one tablespoon onion juice. Season to taste, form in patties, roll in bread crumbs and fry a rich brown. They are delicious!

Mock Duck—Place on a round steak, stuffing of bread crumbs seasoned with chopped onion, salt and pepper, one-quarter pound bacon cut in tiny cubes. Roll and tie. Steam or stew till tender.

Date Cookies—One and one-half cups sugar, one cup butter, two eggs well beaten, three-quarter pound chopped dates, one-half cup chopped nuts, one teaspoon soda in one-half cup hot water, one-half teaspoon cinnamon, three cups flour. Mix and drop on tins. Bake in slow oven.

HELPFUL HINTS

To Brighten Vases—When the glass in the bathroom or flower vases become dull or grimy, a little vinegar will brighten them.

Soak Meat in Salt Water—Soaking meat which is to be cooked in the oven, such as roast beef, leg of lamb, roast pork, turkey and chicken, in salt water for from a half to three-quarters of an hour will make it more tender; the blood is sometimes drawn from the edge of the meat by this method but this does no harm whatsoever.

To Flour Chicken—Chicken can be floured without getting the hands sticky and with little waste of flour. Place flour, salt and pepper in a small tin pail which has a lid that will fit tight. Then put several pieces of chicken in the flour, set the lid in place and shake the pail. The meat is floured evenly and quickly.

To Avoid Indigestion From Onions—Onions should be thoroughly peeled—not just the tough skin that is on the outside, but one layer and the thin skin under it should be removed. This prevents indigestion from eating onions.

To Clean Deep Vases or Water Bottles—Use a little water with dissolved soap. Then, instead of shot, which will soon mar the glass by its scratches, wad up small bits of paper—such as a paper napkin or paper towel or wrapping paper—and shake these in the bottle. The paper will act like a mop and remove all film. To make the glass brilliant, rinse in warm water with about half teaspoonful of ammonia. In drying the vase or bottle, stand on a towel, but be sure to have the glass so tipped that air may enter and evaporate the moisture.

To Remove Grease From Clothing—Apply black coffee and rub grease spot. It will immediately disappear.

To Keep Raisins on Top—If raisins and currants are rolled in flour before putting into a cake, they will not sink to the bottom.

A large and attentive audience rd the lecture at Rialto theatre t evening by Revv. Andrew Gran. C. S. B., member of the lecesh of the Mother Church, the st Church of Christ, Scientist, ston.

Speaking of oud age, the lecturer d in part.

Permit us to cite an illustration to the reparable past. There is almost universal belief, by mand, that because of this thing led the past, that is because of lapse of time, all people must fer from the disease known as age; that is the pa t years ape it is present. They prepare it, and make a place for it, king forward with fear and mbling to increasing infirmities, l the gradual weakening at the nction that the only possible y to escape is to die Now death not a therapeutic agent. It is elf error and has no healing wer. This cruel creed that the ease of old age cannot be pre- ted nor overcome is untrue. God er ordained a law that man, in nce should become infirm and pless. The carnal, human, mor- mind made this so-called law. long as men believe it, they will r it, and experience the cruel ts of it. Ourside of Christian nce there have been and are e thinkers who have much bet- beliefs about old age than oth- . Mary Baker Eddy states rly in her text book: "Man in ence is neither young or old. He ... th nor death." "De- mitude is not according to law, is it necessary of nature, but an sion." It is good to have an un- standing of the wonderful truth Christian Science, that every- g that is unlike God is an illu- n, and can be destroyed by wing the truth. This under- nding will enable men and wom- to forestall old age and to renew rejuvigorate themselves. Chris- n Science is overcoming this dis- e in thousands of cases through- the world. The elimination of age from thought is man's God en right. If through this un- standing we are enabled to add or fifteen years of active, joy- service to mankind, we will e made a large contribution to- ds overcoming the disease of age, and we shall not have so ch to overcome thereafter."

SUGGESTIONS FOR DYEING

The war taught us many things—some were new, and some were only reviving lost home industries. Under this latter head comes the revival of home dyeing. Our great-grandmothers spun, wove and dyed their own fabrics. We cannot compete with them in spinning and weaving but in dyeing we can proudly hold our own. The department of agriculture has co-operated with state agricultural colleges in sending out formulas for making dyes. These are sent free on request. For those who do not care to bother with making the dye itself, there are again available standard makes of commercial dyes, quite trustworthy and reliable. With all these dyes come careful directions for their use, but a few "do's" and "don'ts" from practical experience may not come amiss.

First the "do's." Be careful to rip thoroughly any article to be dyed. Wash and clean perfectly. Remember, dye will not cover either dirt or grease stains. Always test out the dye on a small piece of the material to be dyed. Let it dry and press carefully; then you will see how the whole will look. Mix the dye in a clean enamelware basin and do the real dyeing in a large, enameled preserving kettle. This insures the dye from being darkened by contact with metal.

Don't make the dye too strong at first. It is easier to add color than to remove it. Don't hurry the process; dye in an enamelware kettle can be safely kept on from day to day and many materials are improved by repeated dippings. Mothers of small children find home dyeing a great economy and many a girl helps out her dancing frocks by change of color from the home dye pot.

Eubanks met the men in a local saloon and at their invitation took a ride with them to Covington where one of the trio stuck a gun to his head and made him sit still until they were far out in the country. Here they robbed Eubanks and put him out, but the "up stater" tramped back to Cincinnati, tracked down the robbers and had one of them arrested and their automobile confiscated by the police.

ELYRIA HIGH READY FOR FOURTH LEAGUE BATTLE AT NORWALK TOMORROW

BY CLIFF HENNINGS

Handling the ball and more and more of it has been the keynote of the White and Crimson outfit in the daily practice sessions this week in preparation for the game with Norwalk High tomorrow afternoon.

Fumbling proved entirely too extravagant in the Oberlin game and the Coach has been injecting daily doses into the squad that will improve their handling of the oval.

The bleachers at the new Alumni Field are rapidly nearing completion and everything is expected to be in ship shape for the Fremont game here on Armistice day Nov. 11.

Reserved seats for the Lorain-Elyria game are nearly all taken. Lorain High School phoned in yesterday and asked for 200 reserved seats and 1500 student tickets. Local fans wishing tickets had better get them now.

Locals Ready

Coach Peabody's boys are in fine trim for the game tomorrow. No one is on the hospital list or in the ineligibility regiment. Practice this week has consisted, for the most part, of handling the ball on various formations. Two scrimmage sessions were held this week and judging from the scrap put up by the reserves, some of the Varsity berths may receive a caller. Coach Peabody has made a change in the lineup which promises to strengthen the team. Captain 'Dac' Oldfield has been shifted up on the forward wall as right end while 'Bus' Vessey takes the right-halfback position. The new combination works very well in practice and if it continues to do so in a game 'Dac' will remain at his new berth.

Norwalk Hard Hit

Norwalk has had their share of hard luck many times over this season. It started off with injuries to players. Then Oberlin High beat them 19-13 on penalties inflicted by an over-strict Umpire. Their latest Black eat came when the Board of Directors of the Little Big Seven ousted Captain and tackle Betts along with quarter-back J. Cronin. These two men were two of the best on the team and their absence will be deeply felt tomorrow. However the Maple City crew will give a good account of themselves and if the locals enter the game over-confident they will return from Norwalk much the same as they came back from Oberlin last week. Norwalk made the same Oberlin team step mighty fast to beat them 19-13 a couple weeks back. Fitzgerald the Oberlin signal caller was the only man out of the Red and Blue lineup. These things go to prove that the game tomorrow will be much more then a friendly game of golf on a March morning.

Large Squad

Coach Peabody will probably take the largest squad of the year to Norwalk tomorrow as it is the last game to be played abroad unless Manager Welton books a post-season game on Turkey day. About twenty-six men are expected to go to Norwalk. The probable starting lineup follows:

Elyria	Po.	Norwalk
Clark	L E	Westrick
Schuster	L T	Davis
Reounard	L G	Ford
Kragman	C	Preston
Barton	R G	Bilton
Reynolds	R T	Williams
Oldfield, (C.)	R E	Homerick
Halpin	Q	Whitaker
Houserman	L H	Lawden
Vessey	R H	R. Cronin
Dangerfield	F	Bowers

About three hundred rooters are expected to go with the team to Norwalk. Many will go by machine while several of the students are planning to hike to the Maple City.

Big Game at Lorain

Longfellow Field on the East Side of the Lake Town will be the scene of a battle royal tomorrow as the League-Leaders, Oberlin High, comes to Lorain to play Coach Collin's boys. Lorain is the only team in the league with a clean league slate and they are desirous of keeping it that way as well as try to cop the league bunting. A crowd of 3500 is expected to turn out for the Lorain-Oberlin battle. Both games are scheduled to start at 2:30 sharp.

W. AND J. TEAM, UNBEATEN TWO YEARS, MUST BEAT PITT TO KEEP RECORD CLEAR

Three W. and J. stars. Quarterback Brenkert, left; Right End Konvolinka, center, and Fullback Basista.

Undefeated for two years, Greasy Neale's Washington and Jefferson grid team is starting on the final weeks of its 1922 season, hopeful of keeping its slate clean. The team's run of wins will be in danger three times, however, as the easterners must play Pittsburg, Detroit U. and West Virginia. Above are three of the W. and J. stars of the year.

LACE MAKERS AND STEELMEN WIN BATTLES

Several surprises were sprung in the Y. M. C. A. Industrial Indoor baseball league and the large crowd of rooters present showed their enthusiasm for their favorites at all stages of the games.

The first game of the evening was scheduled between the Colson Co. and the American Lace Co. Both teams played air tight ball until near the end of the game when the Colson players made several errors and gave the American Lace team a slight lead. From then on it was nothing but American Lace rallies and at the close of the game the Colsons were on the short end of the score which stood 26 to 9 in favor of the American Lace Co. Tulk, Stevenson and Birch were the star players for the Lace Co. while Gearheart and Stolzenburg played the best game for the losers.

The second game of the evening proved to be the best game of the season so far and was not decided until the last man on the Worthington Ball team had finished batting for the third out. The game was hard fought all the way and some fast and snappy plays were executed during the game. Both teams had their batting eyes but were weak on their fielding at the most critical stages of play which counted in scores. Nineteen two base hits were hit during the game, but even at that both pitchers played a fine game.

In the third game of the evening the General Phonograph Co. did not put in appearance and the game was forfeited to the Western Automatics. Following are the lineups and scores of games for the evening.

VERMILION PLAYS AT AMHERST SATURDAY

AMHERST, Nov. 10.—The Amherst High football team will clash with the Vermilion High team at the Harris street field Saturday. The locals defeated the Vermilion lads by a 13-0 score earlier in the season and are going to try to duplicate the feat Saturday. Coach Darling has ben working his team hard this week and ought to be in good condition by Saturday.

WANT NORWALK HIGH FIGHTING PLAYERS OUSTED FOR SEASON

NORWALK, Nov. 10.—Officials of the Little Big Seven high school league say local school authorities did not go far enough when they suspended Captain Thayer Betts and Quarterback Ray Cronin, of the local team, for slugging J. L. Opplet of Lorain, an umpire, at the close of the Norwalk-Oberlin game here a few weeks ago. Bett was suspended one week and Cronin two weeks.

The officials of the league, in special session, adopted a resolution requesting the players to be suspended for the rest of the season. This probably will be done, but the whole team may decide to quit. The league consists of Bellevue, Elyria, Fremont, Lorain, Oberlin, Sandusky and Norwalk.

OBERLIN HAS NEW TACKLE

OBERLIN, Nov. 10.—When Oberlin lines up against Case Saturday, a new man will be in the position of right tackle. Slessinger, who started the season as center but was injured in the Kenyon game, has come back as a tackle, and Coach Stallings will give him his first varsity try in that position against Case. Slessinger played for Carnegie Tech last season.

The team is working harder for fear that over-confidence might bring disastrous results Saturday. Oberlin would hate to have Case do the same thing this year she did last, and so is taking every precaution to be on the safe side.

The football team was today presented with an aoutfit of "O" blankets, which will make their first appearance when Oberlin migrates to Cleveland Saturday. The blankets were the gift of the freshman class.

ARMISTICE DAY

Tomorrow is Armistice Day. It is the anniversary of the day on which the great war virtually ceased. It has been set apart in the minds of many individuals, and by organizations as well, as a real Sabbath, in memory of the gallant men who entered the army of the Republic to defend the principles of Democracy.

All over the state, yes, all over the Nation the people will gather in service tomorrow, to render homage to those noble men. In honoring them we are honoring ourselves and our institutions. They were the product of three hundred years of pioneering progress, and of promise. Their purpose was to defend the principles of the Declaration of Independence that are embodied in the Magna Charta and the Bill of Rights in every Constitution. Their devotion and heroism as evidenced on the battle field, in their relations one to the other, is a heritage of the nation which makes us a richer and stronger people.

Many of them fought, and all of them stood ready to fight for freedom, for the spirit of Democracy, and to end war for all time. The failure to achieve the highest results in the way of forever ending conflict caused a keen disappointment in the minds of ex-service men.

Tomorrow we will gather to express our grateful appreciation for their service. May we in so doing consecrate ourselves anew to our country's good. Let us determine to show ourselves worthy, in our devotion to the highest purposes of America, of the valor and sacrifice of these men and of their mothers and fathers and sisters who kept the home fires burning and uncomplainingly carried on the labor which was necessary for the success of the men on the firing line.

A COSTLY MISTAKE

Some time ago a question was agitated over the seating of Senator Newberry. He had spent an outrageous amount of money in being elected United States Senator from the state of Michigan. It was made a partisan issue and with few exceptions, his party associates voted for the seating of Mr. Newberry.

Later when it proved that this vote was to cut a serious figure in the campaign, Secretary of State Hughes, who had been attorney for Mr. Newberry, came out with a letter in his defense, but the fight was on all over the country and in the State of Michigan, Senator Townsend, a colleague of Mr. Newberry, went down to defeat upon this distinct issue. The Democratic candidate for the United States Senate came out with a substantial majority, while a Republican governor was elected in Michigan.

This is the first Democratic Senator that Michigan has elected in seventy years, and in all probability other senatorial seats were also lost to the Republicans by this vote on Senator Newberry. In other words, in order to keep Senator Newberry, six perfectly good Senators were sacrificed, and now the Senator-Elect from Michigan proposes to open up the fight all over the country. This will make the last condition worse than the first, or else Senator Newberry will have to resign.

It is difficult frequently to take the right stand, but it always costs more in the end to take any other stand. There is infinitely more which has to be sacrificed in the finish than would have had to be sacrificed in the beginning.

Newberry will probably resign, but the effect of his mistake has been felt to the farthest bounds of the country, and has injured every person who has been connected with it excepting those who have taken their stand absolutely against it.

THE ELECTION OF JUDGE ALLEN

We are happy to know that Judge Florence Allen has been elected to one of the positions on the Supreme Court Bench. In this she defeated Judge Hough who was already a member of the Supreme Court, running for re-election.

It has been the determination on the part of the citizens of Ohio that the judiciary should be taken out of partisan politics. Unfortunately, it is permitted, under the law, for Judges to be nominated through the party system at the Primary, and thereby get the moral support of the party organization on their behalf. This is really contrary to the purport of the law.

Miss Allen carried out the spirit of the law by not attempting to get into the Primary. She gained the nomination through petition, and a canvass was made for her on the grounds of merit and independence. Her election was an expression of intelligence and discrimination of the electorate of Ohio.

Judge Day who was selected with her to a position of the Supreme Court is an able and well-equipped jurist, and we believe that these two Judges will be a distinct addition to the Supreme Court Bench.

HE WEARS NO MAN'S COLLAR

Andy Gump was elected. It would have been a shame to have had him defeated. Next to local issues in Elyria, and the dry issue in the state, we were concerned over Andy Gump, the people's friend who wore no man's collar. How could he help winning? He was abused by the newspapers and had the sympathy of everybody.

We will follow him in Congress. They say that the chin is the evidence of determination. This is not true with Gump. He hasn't any chin, but he certainly stuck to his job. There are some congressmen who are all chin who will not loom up to Andy.

Andy was elected by everybody, everywhere, and everybody was happy when this man of Sidney Smith's imagination was made to win. We will follow him in Congress with delight.

KOMICAL TELEGRAMS

By JIM ARMITAGE, Himself

Was up to the Friendship Club's "Father and Daughter" Banquet last night. It was some party. Guess I'm getting along.

They had some regular things to eat and to top it off they served all-day suckers, the old fashioned kind. Oh, boy! how hard they were. I noticed "Doc" Saunders, he gave his to Alex Altfield. Then, him his card.

John Halpin played a solo on a Hungarian zither. It wasn't bad at that. John used to be a bear on a "wind instrument," when he was in the city council.

One of the young hostesses made a speech, saying, "among other things 'You as fathers, don't know how dear your daughters are to you.' Can you beat that, with half of those girls saying there in fur coats?

I sang what I though was a pretty good song, then the chairman of the program committee, Miss Tibbals, said "Miss Dunchester will sing a "POPULAR" a-

Then they called on Doctor Hubbell. He didn't sing but he said, "If ee, of you happen to break a leg or anything like that call me up and I'll fix it FREE."

Believe me when you're "Stepping out" with your daughter you've to be careful not to get the wrong spoon.

Wonder why they don't put some of those girls on the foot ball team for the Lorain game? Dress 'em all up in their best rags and the Lorain team—wouldn't even think of foot ball.

Some of you may wonder why I'm writing about that banquet. But if you do, you haven't a daughter,—a freshman.

I was reading about a fellow in Connecticut shooting one of the boarders—But it may have only been a rumor.

See where Senator Lodge's opponent asks for a recount. He better be careful—He pretty near took the count the way it was.

"Batting Siki, French pugilistic champion attacks referee." Who does he think he is, a big league ball player?

They give Fess a lot of credit for "carrying Ohio." Look at Atlas—they picture him carrying the world.

Now that the election is over—we'll be able to read about all the murders on the front page.

Liberty bonds are a little better than par. This ought to interest the bankers that everyone sold 'em to.

—Poindexter takes lead over Dill.—Now I suppose Dill will go [illegible].

40 Years Ago

The new roller skating rink was all the rage with the young people, Jay Budd and Lew Wallace were the instructers.

The Elyria Republican lamented because a real good show could not draw a house, but a burlesque show could pack the town hall to the doors.

The Grand Army Post was presented with a beautiful silk flag by the wives of the members.

The Lake Shore railroad put in gates at each of the street crossings in the down town district.

Elyria had six volunteer fire departments with 24 members besides the chief and two assistants. Eagle Hose had 15 members, Relief Hose, 15; hook and ladder, 20; east side, 12; west side, 12; south side, 12. When they all got to a fire it took a commanding general to direct them, for it usually was every man for himself.

HEIRESS WEDDING TO BE VERY SIMPLE

CHICAGO, Nov. 10.—Dellora Angell, 19 year old heiress to the $35,000,000 estate left by John W. Gates, who is engaged to marry Lester Morris, 21 year old son of a St. Charles, Ills., undertaker, is going to have "just a simple wedding" she declared today.

It won't be a church wedding, either. Just a quiet, homey sort of an affair. Wanda Blanchard, a girlhood chum, will play the wedding march. Lester's family and Dellora's too, will be present. The only other guests will be boys and girls in town that both Lester and Dellora know.

J. Perry, At 80, Is Court Bailiff; Gains 15 lbs.

The fact that John S. Perry, 2464 Lawton Ave., Toledo, Ohio, is nearly years of age does not prevent him from actively serving as bailiff of Lucas county Court of Appeals for he is as hale and hearty as most men many years younger. Being asked recently regarding his robust helath and unusual energy, Mr. Perry said:

"You can give all the credit to this medicine called Taniac. It has put me in better shape physically than I have been in more than four years. In fact, I came out of the Civil War all run down and had not known a real well day until after taking Taniac. Here of late my stomach was all out of fix and I had grown so weak I had to sit down most of the time. I don't feel a day over sixty-five now and my friends all say I look better than they ever saw me. Besides putting me in good health Taniac has also increased my weight fifteen pounds."

Taniac is sold by all good druggists.—Advt.

Florence Allen Outlines Policy As Ohio Justice

Judge Florence Allen

CLEVELAND, Nov. 10.—Assured of election as a member of the supreme court of Ohio, Judge Florence E. Allen the first woman to occupy a position of that kind, as she was the first woman common pleas judge in the United States, said today she would take her seat on the bench in January with no other obligations than those I owe to the people who elected me."

"The fact that we had the support of the fine elements in both parties and among all groups," Judge Allen continued, "indicates there is a very definite desire on the part of thinking citizens to keep the judiciary out of politics.

"I appreciate greatly both the quality and strength of the backing given me and am glad that I shall be able to take office in the supreme court of the state bound by no other obligations than those I owe to the people I represent."

Judge Allen's election as the successor of Judge Benson W. Hough, of Delaware, world war hero, will create a vacancy on the common pleas bench of Cuyahoga county. Whether she will give Governor Davis an opportunity to make the appointment, or withhold her resignation until the inauguration of Governor-elect Donahey, she was unwilling to state today.

BATTLING SIKI BURGLARIZED OF EUROPEAN TITLE

PARIS, Nov. 10.—Battling Siki, French Senegalese negro, who won the light heavyweight championship of Europe from Georges Carpentier, is just plain Battling Siki today. His title was cancelled and he was barred from the French prize ring for nine months by the French boxing federation because of rough house tactics at the ringside.

Siki has shown by his conduct that he is not worthy to represent France internationally," said the federation's statement announcing the banishment of the negro fighter from the ring.

Considerable influence was exerted upon the members of the federation by news that British government would not allow Siki to meet a white fighter on English soil.

Francois Descamps, manager of Carpentier, and M. Cuny, whom Siki assaulted on Wednesday night, appealed to the federation for clemency for the negro but were overruled. President Rousseau, of the federation, wished to make Siki's period of exile from the prize ring two years instead of nine months, but finally gave in.

The meeting of the federation broke up at 3 a. m. As Siki came out he was asked what he thought of the decision.

"All right let them take my title," exclaimed the big negro good naturedly. "I don't care. It went to my head and made me do some silly things They can't take away my name of Battling Siki. Plain Battling Siki is good enough for me."

News of the decision was sent to the international boxing union requesting all countries to boycott Siki.

Descamps did not leave the meeting room until nearly 4 o'clock. Asked what his future plans were he replied:

"Carpentier will arrive here from Berlin either late today or tomorrow. Of course this action in suddenly vacating the title is unexpected but I have an idea to meet it. I suggest that the federation hold an elimination boxing tournament, the final winner to meet Carpentier for the title."

LONDON, Nov. 10.—Georges Carpentier probably will be invited to meet Joe Beckett, English heavyweight, in the prize ring, in place of Battling Siki, the negro, who was barred by the government. Beckett and Siki were to have fought here next month.

Beckett said today that he is still willing to meet Siki, despite the action of the French federation of boxing in cancelling his title. He said he would fight the negro in the United States if an offer were made.

Public opinion seems to support the action of the government in preventing fights between blacks and whites in this country.

DOCTORS STOP MEAT IN KIDNEY TROUBLE

No man or woman who eats too much meat can make a mistake by flushing the kidneys occasionally, says a well-known authority. Big meat eating may develop uric acid, which excites the kidneys; they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood; then we get sick. Rheumatism, headaches, liver trohble, nervousness, dizziness, sleepiness and urinary disorders often come from sloggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys; also to neutralize the acids in urine so it no longer causes irritation, thus often ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications.—Advt.

SAYS FARMERS LOSING AGAIN

COLUMBUS, Nov. 10.—That Ohio farmers are worse off today, from the viewpoint of purchasing power, than they were a year ago is the claim made here today by rural economists.

This conclusion has been reached in the report of the latest monthly survey on price levels by economists who classed farm commodity prices and compared them to prices on goods which farmers have to buy.

"At the harvest season a year ago, the wholesale price of Ohio farm products stood 31 percent above the pre-war level," said R. F. Hall, agricultural economist in co-operation with the extension service, Ohio State University. "Now it is only 24 percent over this level."

COLUMBUS, Nov. 10. Complying with a request from consumers who desired to obtain that kind of coal, State Fuel Administrator Neal has issued an order, boosting "sale" prices for specially prepared sizes of coal 50 cents per ton.

Prices for run of mine, lump coal 1 1-4 inch, or smaller sizes, remain unchanged, it was announced. Administrator Neal said that the increase will affect only consumers who desire special sizes. He said all ordinary domestic fuel sales consist of the customary run of fine and the regular lump sizes.

PUTS SANE GIRL IN ASYLUM TO STOP WEDDING

BOSTON, Nov. 10.—A far reaching investigation into the history and mental conditions of persons confined in asylums in this state as insane, is expected to follow startling admissions made on the witness stand by William F. Jardine, guardian of Dorothy Gordon, a pretty Boton heiress.

Jardine, testifying in a suit brought by the girl's uncle to have him removed as guardian, admitted sending the girl to the asylum while she was sane, fearing she would marry Willard Newell, a technical student, now in Savannah, Ga. Her marriage to Newell would have deprived Jardine of the control of the girl's estate of many thousands, he admitted.

Although he believed her sane, Jardine admitted giving orders that none of her relatives be permitted to see her. No alienists were called to examine the girl before her commitment, Jardine, acting as her guardian, sending here there as a "voluntary" patient. She has been in the asylum since March, 1921.

SAYS PRAYER BROUGHT BACK HER "DEAD" BABY

OAKLAND, Cal., Nov. 10.—To suspended animation, physicians today attributed the remarkable return to life of the sixteen day old daughter of Mrs. George Kayuo on an undertaker's slab several hours after she had been pronounced dead.

But the mother believes the power of her love called her baby back from the grave.

"My baby die," she said in broken English today as she crooned to the child at her breast. "I pray God to give back my baby. He feel sorry for me and open the gate to let her come back to me."

The undertaker felt a faint flutter of the child's heart and applied artificial respiration, restoring circulation and breathing.

DUBLIN, Nov. 10—Erskine Childers, and Seamus Robinson, two of the foremost military leaders of the irregulars, were captured by free state troops at Wycklow today. DUBLIN, Nov. 10.—Two civilians were killed in fighting which raged in the streets here throughout the night. It centered about the Wellington and Porto Bello barracks. Republican headquarters were raided and valuable documents seized.

Why This Dish

Why do millions of mothers start their children's days on oats?

Because oats form the premier food.

Their energy value is 1810 calories per pound.

They supply 16 elements which growing children need.

They are rich in minerals.

They supply the whole-grain vitamines.

Why do we make a special grade and call them Mother's Oats?

And why do so many mothers serve them?

Because oats differ in flavor. Some are delicious, some are not.

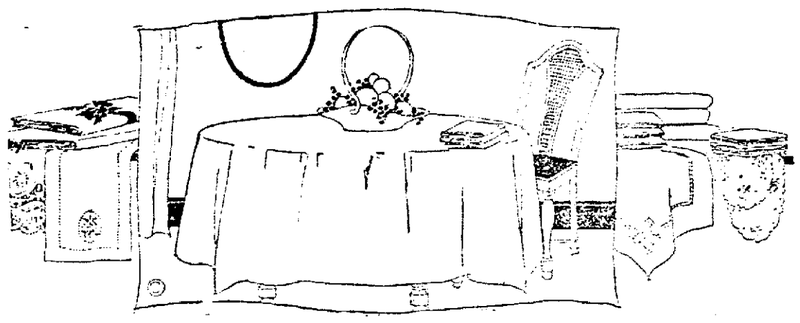

Mothers want the flavory oats, so we pick them out and flake them.

If you want to make the oat dish welcome, always serve Mother's Oats.

MOTHER'S OATS

The luxury oats—large, luscious flakes

Yet the cost is only one-half cent per dish.

UNRULY PUPILS TO BE EXPELLED FOR A TERM

OBERLIN, Nv. 10.—The cases of Milred and Samuel Caldwell, pupils in the North Pleasant street school, who caused a serious disturbance here a week ago, are being investigated by the board of education. It is probable that both will be expelled for the remainder of the term and a second offense will justify their appearing before the juvenile court. Superintendent Rawdon said there were two or three others there whose expulsion he might recommend. One of these was a large white boy who had given considerable trouble.

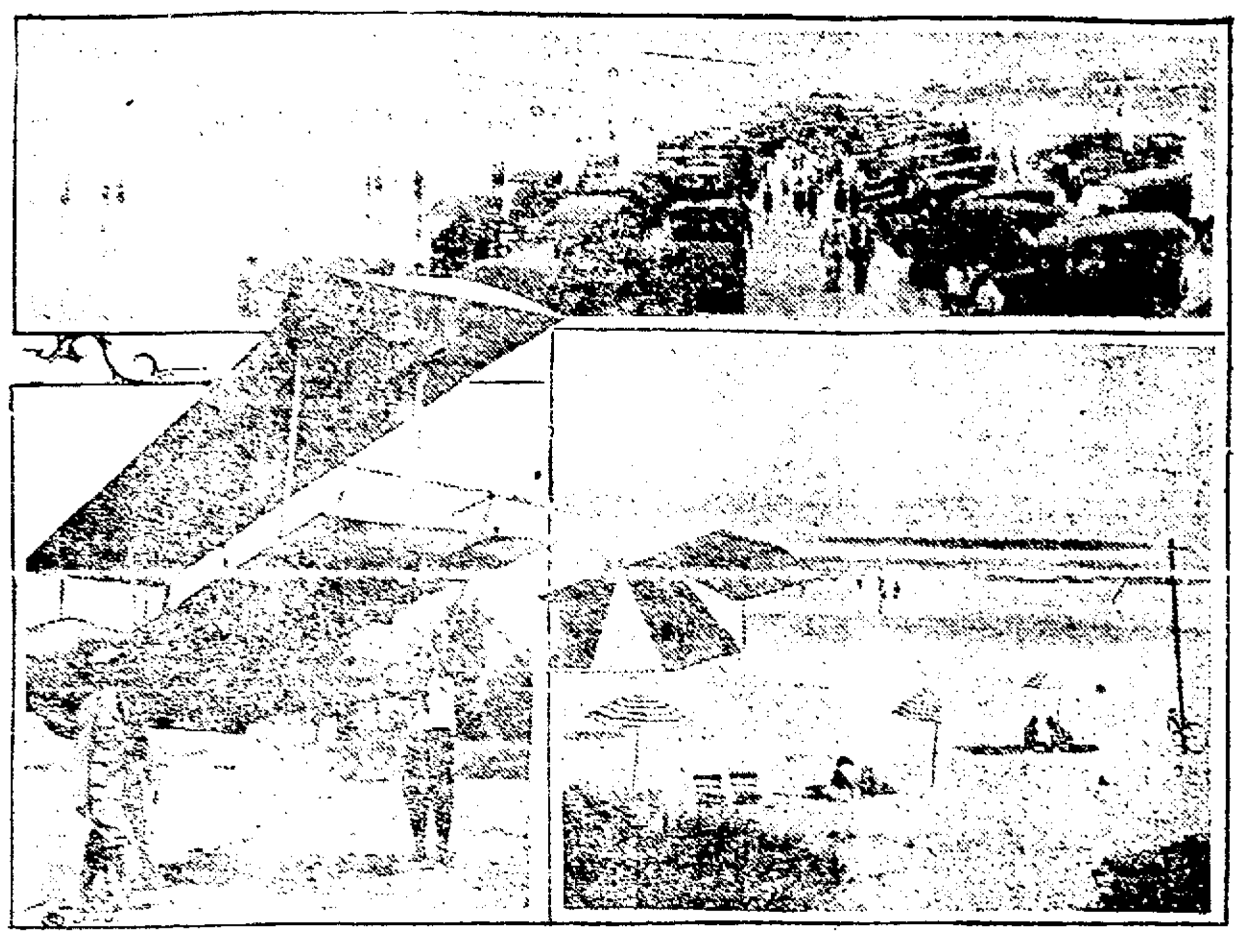

The records of the two Caldwell children has been good in previous years, both in attendance and in conduct.

One of the greatest troubles in both the Pleasant and Prospect buildings at the present time is the large enrollment, especially in the fourth and fifth grades. The attendance runs away over what a teacher should look after. This situation will shortly be relieved as the board of education has authorized Mr. Rawdon to secure two additional teachers, one for each building. It will probably mean half-day sessions in these two grades but better results can be looked for them under present conditions.

Daughter Aids Blind Soldier To Slay Male Home Wrecker

PARIS, Nov. 10.—A story of a wife, stolen from the fireside of a blind soldier, who had sacrificed his sight for France upon the field of battle, and the murder of the man to whom she had yielded her guilty love, was received here today from Avignon.

It is a tale that reads as though it might have been lifted from the pages of DeMaspassant. The wronged husband, Vincent Fabre, in his humble home at Avignon takes the hand of his four year old daughter and whispers to her:

"Daughter, get my old army pistol out of the drawer. Are you sure it is loaded? Take my arm and lead me to the home of Joseph Audenhem. When we get there if you hear your mother's voice lead me directly in front of her. If she is not there be sure to place me directly in front of Joseph Audenham."

Led by his little daughter, who tripped gaily at his side, Fabre [illegible] wife was not there. The baby daughter, obeying instruitions, placed her father in front of Audenham. Fabre spoke. Audenham replied. Fabre fired.

Audenham fell dead.

Then the baby girl, horrified with terror, led her father back to his home where he was arrested receiving his act in the arms of his wife and daughter.

Fabre [illegible] been blind since the war. With the subtle sense of the blind he noted a change in his wife's conduct and then officious neighbors confirmed his suspicions. When he was led off by the gendarmes, stumbling down the roadway he exclaimed:

"I am a soldier. I did what a soldier would do."

FRIENDSHIP CLUB FATHER AND DAUGHTER BANQUET LAST EVENING WAS BIG SUCCESS

The Father-Daughter Banquet of the Friendship Club, which was held at the Y. W. C. A. last evening proved to be one of the most enjoyable affairs ever given by the club. About sixty-four fathers and daughters were present.

The guests met in the parlors of the Y. W. C. A. and then marched to the Gymnasium, where a delicious six o'clock dinner was served. After the dinner a welcome to the fathers was given by Miss Conna Bell, president of the club. A very appropriate toast was given by Miss Marie Tibbals to the fathers, Judge Wilcox responding.

During the program impromtu speeches were given by R. P. Vaughn and Jim Armitage. William Davies entertained the guests with several pianologues and stunts. A pleasing piano solo was rendered by Miss Geraldine Halpin and Joyce McKinley gave two very pretty interprative dances. Miss Frances DePeyster also entertained, by playing many popular selections.

White-of-Egg

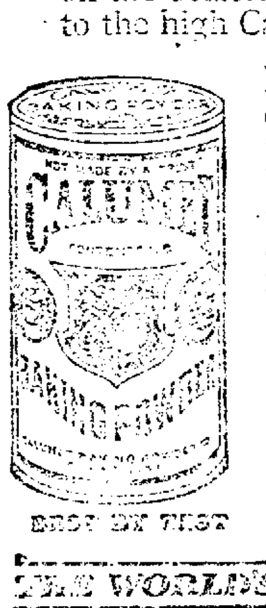

In Calumet a Vital Element Most Baking Powders Lack

Don't use a leavener that does not contain white-of-egg. When you do you take chances—you run the risk of spoiling your bakings.

CALUMET

The Economy BAKING POWDER

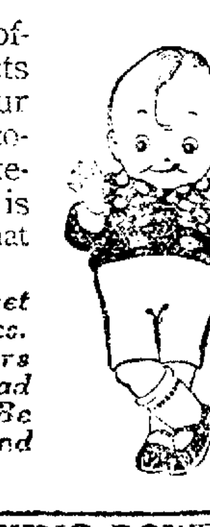

contains a small amount of white-of-egg. This makes it possible for representatives of the company to test it frequently for leavening strength—right on the dealer's counter. Nothing but absolutely fresh stock is permitted to remain on the dealers' shelves. It must always be up to the high Calumet standard.

BEST BY TEST

Remember the white-of-egg in Calumet protects the success of your bakings. It is the economical positive bake-day aid and its sale is 2½ times as much as that of any other brand.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

How I Provide Against Coughs and Colds

BY A MOTHER

"Last winter I resolved to provide in advance for the season's colds and coughs—and I did it. I spent less money and I had no doctor bills. I suffered no dread, no anxiety; I had no sleepless worried vigils—watching my children through the dangerous periods of a bad cold. I want other mothers to know how I did it—my gratitude will then be theirs.

"I bought of my druggist a bottle of Essence Mentho-Laxene and mixed it into a pint with homemade sugar syrup. It's no trouble—three minutes, a little sugar and hot water, that's all. Just follow plain easy directions. The very first dose brings relief and I have not had a serious cold or cough in my family since I adopted this pure good medicine. It contains no chloroform, or narcotics whatever. It's delicious and children don't fight it. I give it to my baby, my two older children and both my husband and self have found it supremely good in every way. It destroys the cold, stops the cough, corrects catarrhal trouble and prevents the dangerous after effects of a cold, because it is antiseptic, mildly laxative and tonic to the system.

"The manufacturers guarantee every bottle satisfactory or money back."

Essence Mentho-Laxene sold by leading druggists, price 75c, or direct by mail. "Best ever sold for cough and cold."

Babson Explains Recent Softness In Street Stocks

WELLESLEY HILLS, Nov. 10.—ce the recent excitement of the el mergers this class of stocks disappointed most people, in t those who consider the steel ustry as a barometer of Ameri business are decidedly upset. ger W. Babson who forecasts the lure of the recent merger emes in these columns explains action of these stocks rather isfactorily.

"Steel prices" he says, "have re tly shown signs of weakening, a erally expected tendency. A vey shows that surface condi as indicate strength, but the un lying situation which is the st important, tells a totally dif ent story. You will remember t six months ago the trend of duction of steel as well as other mmodities, was distinctly up rd. Steel output has recovered m the domestic 1921 slump en only 20,000,000 tons of steel re produced, which was 50% ler the previous year's output. th the increasing supply, there s no scarcity. Unfilled tonnage s increasing only moderately and nsportation conditions were not sidered critical. Prices of steel lets at that time were ruling % over the pre-war average.

"Suddenly the picture changed. e pinch of the diminishing coal ply became more effective and advent of the rail strike ught additional apprehension. e buyer began purchasing ahead protect deliveries. Orders were amided—a fact that is reflected unfilled tonnage, which jumped m 5,776,000 tons in July to 5,- 0,000 tons in August but in Sep ber jumped to 6,691,000 tons. e wave of heavy buying, due to ficial elements, is now passing. e outlook is again changing. The l and railroad strikes are events the past and as artificial ten cies are ironed out and elimi ed, there is a strong possibility of a weakening in the price structure. This does not mean immediately for the question of delivery over the winter months is very important. Steel billets today rule 38% over the low point of this year and 65% over the pre-war average. This level is high enough for we are not on the eve of a boom in steel or commodity prices in general.

"We should not forget that there are several important phases to consider on the bear side. The steel producing capacity of this country as its stands today is much greater than our ability to consume and export. In 1913, the actual output of steel aggregated 31,000,000 tons while producing capacity was estimated at 35,000,000 tons. In 1920 we produced 40,000,000 tons, last year 20,000,000 tons and this year probably 30,000,000 tons, but the main point is, if called upon we could produce steel at the rate of 55,000,000 tons annually. 1923 is bound to be a year of keen competition. Fundamental conditions indicate that we are not entering a prolonged period of over-expansion and any stimulation in consumption will prove gradual and of a limited character. Producing costs, particularly fuel, transportation and labor, are high enough and the next major move, in conjunction with the law of action and reaction should be downward. Certainly this is not the time to be bullish on steel. Protection over the winter months is the prime buying incentive.

"It is questionable whether the steel industry is fully readjusted. It did not conform fully with the contraction of the economic cycle in 1920 and 1921 and this is one of the reasons why I am not partial to steel stocks. The underlying structure of steel stocks is not over-strong although of course individual stocks may show independent strength in sympathy with the action of the stock market."

MY MARRIAGE PROBLEMS

Adele Garrison's New Phase of

Revelations of a Wife

Copyright, 1922, by Newspaper Feature Service, Inc.

What Katie Told Madge Had Made Her "Mad."

LILLIAN'S request was like a sharp gust of wind, lifting the miasma of suspicion from my mental horizon. After all, I knew nothing of what really had happened. The newspaper story was plainly exaggerated—it was one of the freakish stunts which with alleged humor admittedly sacrificed absolute accuracy to cleverness—and Dicky's telegram was simply another wording of Lillian's appeal to reserve my judgment until I had seen him.

I was not the less angry at Dicky because Lillian deftly had removed the festering sliver from the wound he had given me. No matter what alleviating circumstances there were, it still was a most humiliating experience to which he was subjecting me. I wondered how he would act were it possible for me to have given him a similar jolt, and then I realized that Lillian was looking at me and that I had not answered her request.

I put the mending down, went over to her and kissed her.

"You are the best friend either Dicky or I has ever had," I said warmly. "You have the right to request anything you like of me. I'll try to be good, honestly I will."

"The Pirate Craft."

She looked up at me with eyes suddenly moist, and the sight of the tears which she dashed aside impatiently made me realize how deeply she was feeling my trouble. It takes strong emotion to bring the tribute of even dashed-away tears to Lillian's eyes.

"You dear!" she exclaimed tenderly. "Remember I know exactly what you're going through. It isn't any summer squall, it's a real storm, but you're going to weather it through like the brave little mariner you are."

The doorbell pealed, and I gave a nervous start. Lillian patted my shoulder reassuringly.

"And here are the pirate craft, the reporters," she smiled, "or I miss my guess. Do you want to see them first, or shall I?"

"Will you?" I queried nervously, then added quickly: "But I'll do whatever you say."

"I think I'd better take the first whack at them," she said. "I've had more experience than you have, although you had enough last summer when Junior—but this is different, remember," she hastened to say. "At that time we wanted all the publicity we could get in our hunt for him. Now we want to throw them off the track, and make them think the story isn't worth while." And, believe me, feeling a reporter is no kid's game!

Lillian Restrains Madge.

"Don't appear reluctant," she smiled, "nor yet too eager, and as far as you possibly can, tell them the truth. Remember these vital facts, however. This thing isn't serious. It's a natural thing for Dicky to have taken Claire Foster for air rides, and she is a dear friend of yours. Minimize the whole thing as far as possible. Yes, Katie, Come in."

Katie was breathless as she came into the room.

"Dere's three funny peoples downstairs," she said resentfully. "Dot is," she amended honestly but reluctantly, "two of dem all right, but vun man, he shoost beeg bunch of soup greens."

"Who are the people, Katie?" I asked.

She handed me three cards. I read the names aloud.

"Mr. James Rickett, Morning Star; Miss Jean Cargill, Morning Record; Mr. H. Edward Smythe, Morning Gazette."

"Born Harry Smith," Lillian commented caustically. "And the bunch of soup greens or I miss my guess. How about it Katie. What's the name of the one you don't like, and what did he do?"

"He take five-dollar bill from hoe's pocket," Katie said resentfully. "And show eet to me, so," she pantomimed expressively, "und he ask me eef I can no find some new photographs of you und Meester Graham, und dot Mees Foster vot vas here. He say he shoost vant to borrow dem."

"Oh!" I sprang to my feet indignantly, but Lillian put out a restraining hand.

"What did the others say?" she asked.

"Dey awful mad," Katie returned "und de oder man, he say: 'Vot you trying to do, Smit, spoil the whole game by pulling rough stuff like dot?' But de first man he no care, he ask me again."

"What did you say to him?" Lillian asked.

"I told heem to go qvick to de bad place," Katie rejoined nonchalantly.

GLASS BLOWERS GIVE DEMONSTRATION SHOW AT STRAND THEATRE

The demonstration given last night by the Meyers Company glass blowers at the Strand Theatre was very interesting and instructive. The audience was given instructions how to handle glass, how to make a joint of glass, a "Y" test tubes, magnifying glasses and many other things that are used in laboratories. One of the interesting things demonstrated was the spinning of glass over a large wheel. After spinning the glass was as thin and pliable as cloth and could be folded like any cloth.

The steam engine made entirely of glass was shown in operation. The demonstration was indeed wonderful and shows how the art of glass blowing has developed.

The glass demonstration continues tonight and Saturday afternoon and night.

The American Society of Mechanical Engineers is planning to establish a national engineering museum the first of the kind in the United States.

Have You Piles?

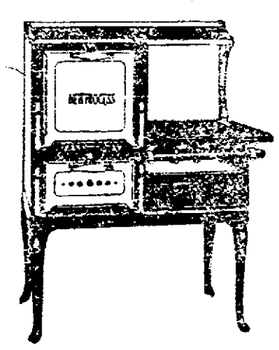

Then You Have Something to Learn

Thousands who have piles have not learned that quick and permanent relief can only be accomplished with internal medicine. Neither cutting nor any amount of treatment with ointments and suppositories will remove the cause.

Bad circulation causes piles. There is a complete stagnation of blood in the lower bowel and a weakening of the parts. Dr. J. S. Leonhardt was first to find the remedy. His prescription, HEM-ROID, is now sold by all druggists. Dr. Leonhardt tried it in 1000 cases with the marvelous record of success in 98 per cent, and then decided it should be sold under a rigid money-back guarantee.

Don't waste any more time with outside applications. Get a package of HEM-ROID from C. W. Phillips today. It has given safe and lasting relief to thousands and should do the same for you—it seldom fails.—Adv.

SUES TO RECOVER POSSESSION OF TABLES

The Brunswick, Balke-Collender Co., have filed a replevin suit in court to gain possession of a number of billiard and pool tables at a pool room at the corner of 7th avenue and Broadway, Lorain, formerly run by John Panay, who is named the defendant. The company claims that six notes for $205 each have not been paid, and that they hold a chattle mortgage on the property they seek to recover.
